

Unit 2 Project

This project is your chance to create from scratch, a website using the techniques you have learned thus far in CSS. It is only going to be a single page website, but it will contain a lot of content in the form of many paragraphs and headings and include some images as well. Make sure to save the project in a folder called LastName_Unit2Project.

Choose any topic of your choice, sports, authors, hobbies, vacation destinations, etc., in which you can apply the below criteria:

- 5 complete paragraphs full of content on your topic (background information, facts, general information -- this can be gathered from Wikipedia or other online source)
- Headings for the paragraphs
- An 8 item list of content relevant to the chosen topic
- At least 2 images (one of which is implemented as a background image)
- Contact information (email, phone number, name, street address)
- 3 external links
- Bold, italic and underlined text

Besides having all of the content above, you must also have all of the following CSS criteria:

- All 5 font properties are used
- All 9 text properties are used
- All 5 background properties are used
- Height, width, float, margin-left and margin-right properties are used

And of course, this webpage should have a plain and simple color palette, good use of organization and correct implementation of CSS.

| Criteria | Grading Scale | | | | |
|---|---------------|---|---|---|---|
| Content There are 5 full paragraphs of information, an 8 item list, 3 external links, headings and 2 images (1 background), contact info and bold, italic and underlined text | 10 | 8 | 6 | 4 | 0 |
| Font Properties All 5 font properties are used on the page | 8 | 6 | 4 | 2 | 0 |
| Background Properties All 5 background properties are used on the page | 8 | 6 | 4 | 2 | 0 |
| Text Properties All 9 text properties are used on the page | 10 | 8 | 6 | 4 | 0 |
| Extra Properties The width, height, margin-left, margin-right and float properties are used | 5 | 4 | 3 | 2 | 0 |
| Other Coding All other coding is correct, including title and meta tags, the style tags and the web page looks nice, is well organized and has a simple color palette | 9 | 7 | 5 | 3 | 0 |
